Date	30 th June 2026
Team ID	xxxxxxx
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student trying to learn and understand academic concepts.	Get quick, accurate answers to my questions (e.g. "Which is the largest ocean?").	I don't always have a teacher or tutor available on demand.	I need instant, subject-specific explanations to keep learning without interruption.	Confident and well-informed.
PS-2	A student studying a specific topic, such as the Pythagoras Theorem.	Assess how well I've understood what I've studied.	Creating my own practice questions is time-consuming and inconsistent.	I need instant, topic-specific quizzes to self-evaluate my understanding.	Prepared and self-assured.
PS-3	A learner exploring a new subject, such as SQL.	Find a structured path to learn the subject from beginner to advanced level.	I don't know which topics to prioritize or in what order to study them.	I need personalized, step-by-step learning recommendations and progression guidance.	Motivated and clearly guided.
